**epi Seminar 07/08 June 2010 in Istanbul**

**“Working through an EP patent procedure,  
from filing over grant to opposition”**

**PROGRAM**

The overall concept is that the participants will go through the whole procedure from drafting the application over grant to opposition. The participants will first receive a description of an invention and one prior art on the basis of which they will have to prepare a set of claims. Thereafter they will receive further prior art on which a first group, the opponent, will have to prepare an opposition and a second group, the proprietor, will have to prepare a defence.

Then on day 2 a Mock Oral Proceedings will be held based on the patent.

The seminar will thus be a mix of presentations and working groups followed by discussions.
